

Actividad Cisco 4

Respuestas

Parte 1

1. WRS1:

SSID: aCompany

Passphrase: aCompWiFi

2. Laptop0:

IP Address: 192.168.0.101

MAC address: 0001.9794.EB38

3. Laptop1:

IP Address: 192.168.0.102

MAC address: 000B.9794.EB38

4. Were both laptop able to connect to the WRS1 network? Why are you unable to associate with the access point?

No, porque al añadir la MAC del portátil o a la lista de filtro de MAC bloquea la conexión de los equipos que no tengan esa MAC.
